

Offsite Landscaping Program

Recommended native plants list

This list is made up of endemic plants for the region surrounding the SEC Delburn Wind Farm in Victoria, which generally comprises the Strzelecki Ranges and Gippsland Plain bioregions. Plants native to the region are more likely to survive and flourish, increasing the effectiveness of the screening. However, screening can be completed with non-native plants if preferred by the property owner (while still considering bushfire risk). The plants in this list have also been selected based on the considerations identified in the Landscaping Guidance for Bushfire Prone Areas.

For further guidance on plants and their associated bushfire risk, refer to CFA's Choosing Suitable Plants resource ([Choosing suitable plants | CFA \(Country Fire Authority\)](#)).

The recommended installation size for plants intended for screening is tube stock, as younger plants rapidly acclimatise to local soil conditions and will ultimately provide a healthier plant and more effective screening

Recommended native plants

Scientific Name	Common Name	Indicative Mature Spread	Indicative Mature Height
Large shrubs / Small trees			
<i>Acacia mucronata subsp. longifolia</i>	Narrow-leaf Wattle	2.0 - 3.0 m	2.0 - 5.0 m
<i>Olearia lirata</i>	Snowy Daisy-bush	2.0 - 3.0 m	2.0 - 6.0 m
<i>Polyscias sambucifolia</i>	Elderberry Panax	1.5 - 2.0 m	1.0 - 4.0 m
<i>Lomatia fraseri</i>	Tree Lomatia	2.0 - 3.0 m	2.0 - 6.0 m
<i>Persoonia arborea</i>	Tree Geebung	2.0 - 4.0 m	4.0 - 10.0 m
Understorey / Sub-canopy trees			
<i>Hedycarya angustifolia</i>	Native Mulberry	2.0 - 4.0 m	3.0 - 8.0 m
<i>Pittosporum bicolor</i>	Banyalla	2.0 - 4.0 m	5.0 - 15.0 m
<i>Pomaderris aspera</i>	Hazel Pomaderris	3.0 - 5.0 m	3.0 - 8.0 m
<i>Olearia argophylla</i>	Musk Daisy-bush	3.0 - 5.0 m	4.0 - 10.0 m
<i>Acmena smithii</i>	Lilly Pilly	3.0 - 5.0 m	5.0 - 15.0 m
<i>Acacia melanoxylon</i>	Blackwood	5.0 - 10.0 m	8.0 - 25.0 m
<i>Myrsine howittiana</i>	Muttonwood	3.0 - 5.0 m	3.0 - 10.0 m
<i>Pittosporum undulatum</i>	Sweet Pittosporum	4.0 - 6.0 m	5.0 - 12.0 m
<i>Acacia implexa</i>	Lightwood	4.0 - 6.0 m	4.0 - 15.0 m

Scientific Name	Common Name	Indicative Mature Spread	Indicative Mature Height
Canopy trees			
<i>Eucalyptus croajingolensis</i>	Gippsland Peppermint	6.0 - 10.0 m	30.0 - 50.0 m
<i>Eucalyptus cypellocarpa</i>	Mountain Grey Gum	10.0 - 15.0 m	30.0 - 50.0 m
<i>Atherosperma moschatum</i>	Southern Sassafras	4.0 - 8.0 m	15.0 - 30.0 m
<i>Nothofagus cunninghamii</i>	Myrtle Beech	5.0 - 10.0 m	20.0 - 40.0 m
